

App. No. 09/682,086

REMARKS - General

By the above amendment, Applicants have amended the title to emphasize the novelty of the invention.

The Applicant believes that claims 2 and 4 have been rewritten as Claims 5 and 6 respectively to address the Examiner's Section 112 concerns and therefore are allowable.

Also applicants have rewritten all claims to define the invention more particularly and distinctly so as to overcome the technical rejections and define the invention patentably over the prior art.

Conclusion

For all of the above reasons, applicant submits that the specification and claims are now in proper form, and that the claims all define patentably over prior art. Therefore the applicant submits that this application is now in condition for allowance, which action is respectfully solicited.

Respectfully submitted,
